

## Market presence the efficient way

---

Present your company at the largest trade fair in the world. Take advantage of this unique platform to present your new developments. Expand your global contacts and gain new customers.

---

The world's leading trade fair bauma is the heartbeat of our industry. It is the most important gathering for companies that deal with construction machinery, building-material machines, mining machines, construction vehicles and construction equipment.

As the leading platform for this sector, bauma gives visitors a complete overview of the market in its full dimension. The number one trade fair continues to set new records. In 2019, 3,700 companies presented their exhibits on 614,000 square meters of space—from leading international manufacturers to specialized newcomers. 79 percent of trade visitors, who came from more than 200 countries, participate in the decision-making process.

bauma is the place to prepare your business transactions and close deals. Generate new business and tap international markets for your company.

As a driving force behind innovation and success in the global industry for construction machinery, the world's leading trade fair consistently sets the pace for the next three years.
