Cont. B 3 Participation fee, advance payment for services (cf. A 7)

Mandatory communication fee

Exhibitors will be charged a mandatory communication fee amounting to **EUR 145**. This fee includes the basic entry in the catalog (print, online and, if applicable, mobile, cf. B 12 Media services) plus one copy of the trade fair catalog (hand-out on site at the fair). It also covers other communication services as set out in provision B 12 "Media services (Catalog—Internet—Mobile)." Exhibitors can book other entries in the respective advertising media for extra charges. Prices for the additional listing and promotion opportunities are given on the respective order forms, which will be sent to exhibitors by the media services partner contracted by Messe München GmbH. A marketing fee of **EUR 15/m²** will be charged in addition.

Advance payment

The advance payment for exhibitor services ("Advance payment," cf. A 7) is **EUR 19/m²** of rented exhibition space in the halls and **EUR 12/m²** in the outdoor exhibition area and yard spaces.

AUMA charge

The German Council of Trade Fairs and Exhibitions (AUMA) levies all exhibitors a charge of **EUR 0.60/m²** of rented exhibition space. This amount is charged by Messe München GmbH and transferred directly to AUMA.

Fixed waste-disposal fee

The mandatory, flat-rate waste disposal fee in the amount of **EUR 5/m² (hall) and EUR 4/m² (outdoor exhibition area and yard spaces)** is to cover the disposal of all waste generated at the exhibitor's booth during setup and dismantling and throughout the duration of the trade fair. The disposal of exhibition stands at the end of the trade show as well as the disposal of production waste from demonstrations and exhibits is not covered by this fee.

B 4 Co-exhibitors/additionally represented companies

The participation of companies as co-exhibitors/additionally represented companies (cf. A 4) is on principle possible. Participation is, however, subject to Messe München GmbH's prior authorization. The registration fee for co-exhibitors/additionally represented companies is subject to a charge. The registration fee per co-exhibitor is **EUR 590**. For additionally represented companies, the registration fee as well as the communication fee are included in the package booking. More information about package bookings, offered exclusively by Messe München, will be made available in due time. However, a mandatory communication fee in the amount of **EUR 145** will be levied for each co-exhibitor. The mandatory communication fee for each co-exhibitor/additionally represented company includes the same services as for the main exhibitor (cf. B 3).

Co-exhibitors are to be registered online by the main exhibitor. The main exhibitor will be invoiced for the registration fee and mandatory communication fee.

Additionally represented companies should submit their participation application via a separate form.

For each co-exhibitor without Messe München GmbH admission, Messe München GmbH is entitled to demand a penalty charge of **EUR 500** from the main exhibitor. Furthermore, Messe München GmbH may demand that co-exhibitors without Messe München GmbH admission vacate the stand. Should the main exhibitor fail to comply with Messe München GmbH's vacation demand without delay, Messe München GmbH has the right of extraordinary cancellation in respect of the contractual relationship between Messe München GmbH and the main exhibitor.

B 5 Terms of payment (cf. A 7)

The amounts invoiced in all invoices issued by Messe München GmbH in connection with the event are to be transferred in euros, without deductions and free of all charges to one of the accounts specified in the respective invoice, indicating the customer number. The times of payment specified in the invoices are binding and are to be complied with.

Term of payment is Friday, January 18, 2019. Prior payment of the invoiced amounts in full is a condition for access to the exhibition stand, entries in the trade show media (print, online, mobile) and the download option for the Print@home-Tickets for exhibitors (cf. B 13). The final invoice for all extra charges (e.g. technical services, electricity, parking permits, ticket vouchers etc.) will be sent to the exhibitor approx. six weeks after the end of the event. It is payable immediately upon receipt. Other services, such as stand cleaning, catering or stand security will be billed for directly by the service partners. Due to value-added tax legislation requirements, Messe München GmbH can only issue or readdress invoices to an invoice recipient other than the exhibitor, if

the recipient is Messe München GmbH's contractual partner concerning the services to be charged. If the exhibitor wants to designate the invoice recipient as the contractual partner of Messe München GmbH instead of himself, he can request the appropriate form at the e-mail address provided in the application. The form should be completed and signed with legally binding effect and returned to Messe München GmbH. Messe München GmbH is under no obligation to accept the different invoice recipient named by the exhibitor as its contracting party. Insofar as Messe München GmbH has already rendered services to the exhibitor at the time of receipt of this form, Messe München will have to bill these services to the exhibitor (cf. A7). Should the exhibitor wish to have an invoice re-issued because the name, legal form or address of the invoice recipient has changed, the exhibitor is bound to pay Messe München GmbH a fee of **EUR 50** for each invoice amendment, unless the data included in the original invoice in respect of the name, legal form or address of the invoice recipient was incorrect and Messe München GmbH was responsible for the incorrect data.

Special Terms of Participation (B)

B 7 Stand design and equipment

Halls

Stand designs for two-story constructions, for stands larger than **100 m²** or stand structures exceeding **3 m** in height or with a stand covering require prior authorization. Dimensioned drawings including floor plans and elevations on a scale of 1:100 must be submitted in duplicate to Messe München GmbH, Technical Exhibition Services Division for approval no later than 6 weeks before setup begins.

One-story construction

The maximum construction height is **7.50 m**. The maximum advertising height (upper edge) is **7.50 m**.

Two-story construction

The maximum construction height is **7.50 m**. The maximum advertising height (upper edge) is **7.50 m**.

In addition, the maximum construction height (clearance) alongside the hall walls must be observed (see description of halls and outdoor exhibition grounds).

The partition walls facing the neighboring stand must be kept white, neutral, free of installations and clean above a height of **2.50 m**. It is recommended that exhibitors install partition walls (height **2.50 m**) as demarcation to neighboring stands. Messe München GmbH supplies partition walls only at the request and expense of the exhibitor. Partition walls or additional cabin walls (height **2.50 m**) can be ordered in the Exhibitor Shop. In the case of advertising structures directly facing adjoining stands, there must be a minimum distance of **2 m** to the stand perimeters. Flashing or changing lights must not be used for advertising purposes. The exhibition stand should also meet the character of the respective trade fair to preserve the visual identity of the event. Messe München GmbH is entitled to demand changes in stand design on this account.

Stand designs can only be approved if the open sides of the booth have a uniformly open design. Erecting closed walls is permitted, provided they do not take up more than **70%** of the total length of that stand side. This ruling does not apply, if:

- the respective structure is set back from the stand perimeter by at least **2 m**
- the height of structures at the stand perimeter does not exceed **1.20 m**

If, for safety reasons, a closed structure exceeding **1.20 m** in length should be necessary, exhibitors are requested to consult with the Technical Exhibition Service. Messe München GmbH reserves the right to permit exceptions to

these guidelines in individual, well-founded cases. The rear walls of exhibition stands rising above a height of **2.50 m** must be of neutral design, white, smooth and clean. Only such materials as are opaque and impervious to light are permitted for this purpose (no textiles). Advertising hoardings that extend above the walls of the booth must be at least **2 m** away from directly adjacent, neighboring stands. Flashing or alternating lights may not be used for advertising purposes.

It is not permitted to extend the stand design over the aisles (overbuilding). Messe München GmbH reserves the right to allow exceptions to this ruling in individual, well-founded cases, whereby the only permissible exception is the laying of different-colored carpeting. Raised platforms are generally not permitted.

Planning permission halls

As a matter of principle, every planner/designer of an exhibition stand is responsible for compliance with public statutory regulations, insofar as applicable to exhibition stands, and compliance with Messe München GmbH's Technical Guidelines as well as the General Terms of Participation. No planning approval from Messe München GmbH is necessary given compliance with the following requirements:

- stand and/or advertising structures no higher than **3 m**
- stand area no larger than **100 m²**
- stand is without covering.

Any stand concepts in non-compliance with the aforementioned requirements are to be submitted in duplicate for approval to Messe München GmbH's Technical Exhibition Services Division, containing to-scale stand design plans (ground plan, elevations and sectional drawings) no later than 6 weeks prior to official setup date. If items are to be suspended from the hall ceiling, the work involved must be carried out by Messe München GmbH's contractors. Moreover, multi-story stands and special constructions (such as bridges, stairs, cantilever roofs, galleries, etc.) are as a general rule subject to separate approval. Please consult the "Building Regulations" set out under "Leaflets—applications" in the Exhibitor Shop for further information. **Please note under all circumstances the requirements set out in the Technical Guidelines and the information included in the individual notices.** Order forms to request additional exhibitor and technical stand services are available in the Exhibitor Shop.

Special Terms of Participation (B)

The General Terms and Conditions of Participation A and the Technical Guidelines of Messe München GmbH shall apply, insofar as the present Special Terms of Participation do not contain any provisions in derogation thereof.

Cont. B 7 Stand design and equipment

Outdoor exhibition area

For anchorages of tents, guy-ropes and flagpoles as well as for other earthworks in the outdoor exhibition area, detailed site plans have to be submitted to the Technical Exhibition Services Division for written approval. No earthwork in the grounds may be performed without written approval.

Structural elements, stand signs and flags must be designed such that they do not constitute an unreasonable disturbance for neighboring stands. Misleading company signs must be removed at the request of the Exhibition Management. Depending on the infrastructure to be installed and if Messe München GmbH, Technical Exhibition Services Division so requests, a gap of **0.50 m** must be left between the perimeter of the neighboring stand to the rear and any permanent fittings and fitments. Any foundations required in the same location for the next exhibition can be left in if their component parts are at least **30 cm** below the topsoil and relevant contractual provisions have been agreed upon with Messe München GmbH. Plans showing the precise location and size of these foundations are to be submitted to Messe München GmbH, Technical Exhibition Services Division in good time. When carrying out any stand setup work, attention should be given to existing supply lines, distribution boxes, hydrants, light masts, etc. If such facilities are located on the premises of individual stands, access to them must be assured at all times. To prevent any damages, no underground work may be started without prior consultation of Messe München GmbH, Technical Exhibition Services Division. Exhibitors whose stands border on the perimeter of the exhibition grounds may not use the fencing for stand setup purposes. The outside fences may not be used for advertising purposes.

Planning permission outdoor exhibition area

Each installer/operator of an exhibition stand is individually responsible for its structural design, installation and operation, as well as for compliance with all legal stipulations applying to exhibitions and fairs, and with the Technical Guidelines and Terms of Participation set out by Messe München GmbH.

No planning permission from Messe München GmbH is required given compliance with the following conditions:

- height of stand and/or advertising structures no more than **5 m**
- size of stand less than **50 m²**.

All facilities erected on the trade fair site must comply with the material provisions of construction law.

Approval from the supervisory authority for construction work must be obtained for facilities which exceed an enclosed area of **50 m²** or a height of **5 m**. The requisite planning applications along with layout plans and structural calculations or inspection records are to be submitted in good time, at the latest 8 weeks before the start of assembly, to the Technical Exhibition Services Division (see form 1.3).

Plan approval loading yards

Each installer of an exhibition stand is individually responsible for its structural design, installation and operation, as well as for compliance with public statutory regulations, insofar as these are applicable to exhibition stands, Messe München GmbH's Technical Guidelines and the General Terms of Participation. Planning approval by Messe München GmbH is mandatory and must be submitted no later than 6 weeks in advance. The fastening (securing) of stand components by ground anchorages is not permitted. Regulations for the fastening of exhibits by anchoring: Fastening (securing) of machinery by ground anchorages is possible only by written approval of Messe München GmbH's Technical Exhibition Services Division.

Snow clearance

To the extent that the exhibition area is fully covered by a layer of snow prior to the stand setup period, snow clearance can be applied for with Messe München GmbH (lead time prior to execution: 48 hours). This measure is executed on a one-off basis by Messe München GmbH at the request of the exhibitor before move-in, provided that the given exhibition space is accessible by standard clearance vehicles. Once the exhibition area has been occupied, the exhibitor is himself responsible for snow clearance on his own stand.

Deployment of cranes and exhibits

All cranes and exhibits to be erected in the outdoor exhibition area reaching a height of more than **10 m** require the prior approval of Messe München GmbH, Technical Exhibition Services Division and must be registered by means of the corresponding form 12 weeks prior to the commencement of the fair at the latest. If the necessary documents are submitted to Messe München GmbH later than 12 weeks prior to the start of the fair, Messe München GmbH is entitled to lay down a binding stipulation for the maximum erection height for these exhibits as is still available, based on safety grounds. Messe München GmbH is authorized to restrict or prohibit the setup work to ensure compliance with the height stipulated. Messe München GmbH reserves the right to have exhibits examined and/or accepted by experts even if the exhibits concerned do not come under the general data/requirements set out in the relevant form.

B 8 Official regulations and permits

All structures on the exhibition grounds (outdoor exhibition area) are to be erected according to the substantive provisions under building law. Authorization is to be obtained for structures that exceed a built-over area of **50 m²** or a height of **5 m** (pavilions, tents, cranes, plant and equipment etc.). The necessary building applications as well as plans and structural analyses or test books are to be submitted to Messe München GmbH, Technical Exhibition Services Division in good time but not later than 8 weeks before the beginning

of the setup period. Exhibitors are to comply with all legal requirements in the construction of their facilities. In addition to the Technical Guidelines, the relevant safety regulations of the Technical Control Board (TÜV) also apply to all exhibits and other facilities. Revolving tower cranes and the like must be secured in accordance with regulations. For safety reasons, it is not permitted to attach advertising media or other loads to cranes, with the exception of non-weighted flags.

Special Terms of Participation (B)

The General Terms and Conditions of Participation A and the Technical Guidelines of Messe München GmbH shall apply, insofar as the present Special Terms of Participation do not contain any provisions in derogation thereof.

B 9 Technical installations

Wired telecommunications equipment may only be provided by Messe München GmbH; Deutsche Telekom AG and other network operators are not authorized at the exhibition center. The loudness level may not exceed **70 dB (A)** at stand borders (see Technical Guidelines 4.7.7, 5.6.1, 5.9). Despite previous granted permission, Messe München GmbH is authorized to restrict or prohibit any presentations that cause noise or are visually annoying or result in a substantial

danger to or negatively affect the event or event participants for any other reasons.

Under the terms of the Copyright Act, the permission of GEMA – Gesellschaft für musikalische Aufführungs- und mechanische Vervielfältigungsrechte (Musical Performance and Mechanical Reproduction Copyright Watchdog) is required for musical renditions of any kind.

Events may start no earlier than 18:30 and must end no later than 22:00. Until 22:30, the necessary clearing-up work may be undertaken on the stand area. By 23:00 at the latest, all persons must have left the fairgrounds. The exhibitor is to ensure that the attendees of his stand party follow the instructions of the safety and security service employed by Messe München GmbH. The minimum scope of the

B 19 Restoration of exhibition areas and loading yards

All exhibition space and loading yards must be handed over to Messe München GmbH's Technical Services Division in its original condition by the stipulated date for completion of dismantling. To this end, the exhibitor must contact the Technical Services Division in due time to make an appointment to have the space inspected and approved. Asphalted and planted areas will be restored solely by Messe München GmbH at the expense of the exhibitor in question.

Generally speaking, exhibitors must completely remove all structures such as foundations, driven-in piles, utility lines, etc. after the close of the trade fair. Any foundations required in the same location for the next exhibition can be left in if their component parts are at least 30 cm below the topsoil and relevant contractual provisions have been agreed upon with Messe München GmbH. Messe München GmbH is entitled to revoke such an agreement at any time. If the required restoration work has not been completed by the stipulated dismantling deadline, Messe München GmbH is authorized to do this or contract a third party to do this at the expense of the exhibitor.

B 20 Transporting tracked vehicles

Only tracked vehicles with smooth track plates that are approved for use on public roadways may be driven on the roads of the trade fair center. Transporting tracked vehicles into the exhibition halls is permitted only with the

express consent of Messe München GmbH's Technical Services Division. The exhibitor is fully responsible for any damage to road surfaces and hall floors.

B 21 Alterations

Messe München GmbH reserves the right to make alterations and additions in matters affecting technical arrangements and safety.
