

## Canada is bauma partner country 2019

---

A special highlight at each bauma is the partner country. In 2019, a special focus will be put on Canada. Due to the recent free trade agreement CETA and big investments in infrastructure, the Canadian market offers plenty of opportunities for companies and investors from the construction and mining machinery market.

---

Visit bauma 2019 and gain a deeper insight into the Canadian market:

---

### **Supporting program C2.114**

Get information on current projects in the construction and mining sector in one of the most important commodity-producing countries there is

### **Canada Visitor Lounge E00.200/P**

Meet top-investors and companies from Canada

### **Canadian Pavilion C2.226**

Gain an overview about business and investment opportunities in the world's seventh biggest construction machinery market

---

"We look forward to meeting our Canadian colleagues, customers and partners. If you have not seen bauma, you have really missed something. The partner country initiative offers the excellent opportunity to get to know us better and to strengthen our business ties."

### **Franz-Josef Paus, Chairman of the VDMA Construction Equipment and Plant Engineering Association**

"CAMESE considers bauma as one of the most important trade fairs for Canadian Mining Supply and Services companies as it provides an excellent platform to showcase Canadian Mining Supplier solutions to the German and greater European markets. Now with the ratification and implementation of The Canada-European Union Comprehensive Economic and Trade Agreement (CETA), bauma 2019 will be even more important for Canadian Mining Suppliers to attend this prestigious event. This is why CAMESE is very pleased that Canada has been identified as the partner country and our association's planned participation at bauma 2019."

Ryan McEachern, Managing Director of CAMESE
